

Happy New Year!

Welcome back everyone! We hope you all had a lovely Christmas.

It was lovely to welcome the children back after the Christmas break! They were all full of exciting stories of places they visited over Christmas and present they received. It has been a busy start back and the children are still adjusting after such an exciting time off. We have started the half term by looking at a new text linked to space, a topic the children had shown an interest in before Christmas. We have made predictions about the story and are getting to know the characters. We will be reading the text over a couple of week so have not yet reached the end. We have made a Space Station role play which the children are enjoying exploring.

We are beginning to look at the season of winter. The children have enjoyed sharing their knowledge about winter, which we will be building on over the half term. Some children set up their own investigation in our outdoor area to see if the weather gets cold enough for water to freeze.

We are taking part in the 'Big Garden Bird Watch' this month. We are very lucky and have beautiful school grounds which attracts lots of birds. After learning about winter, the children were concerned that the birds would no longer have the berries from the trees to eat now the season is changing. After researching how to help birds in the winter, we decided to make bird feeders to ensure the birds visiting our school grounds had something to eat. The children have enjoyed observing the birds and have been learning the names of lots of new species.

What a busy start back!

Mrs Lamb
